

# COMING SOON... PLM RTK!!!

Ellens Equipment is excited to announce that we will soon have PLM RTK available to our customers. This provides sub-1" repeatable accuracy anywhere in the network, not just within an 8-mile radius.

Benefits that it provides to you:

- Signal availability and consistent accuracy anywhere within the network via cellular modems
- Mixed fleet technology compatibility between both your New Holland and competitor's modems. It supports most common correction types, such as RTCM and CMR
- Reliable correction source from Ellens Equipment. Built-in redundancy in the network reduces your risk of downtime.
- Secure, reliable network that is backed by Ellens Equipment and CNH Industrial to manage the server and assist with making sure that PLM RTK network works for you and your operation.

Watch your newsletter for updates of when PLM RTK will be available to you. If this is something that you are interested in or if you are looking for more information, please contact Luke Ellens at 231-825-2416

# NEWS ABOUT BLUE

## **MAY 1<sup>st</sup> - EXTENDED PARTS HOURS**

Offering extended parts hours to better serve you

**Mon – Fri: 7:00am – 5:00pm**

**Saturday: 7:30am – 12:00pm**

If you need parts outside of these times, please call our after-hours parts line at 231-884-7077

## **Bobcat Grader & Excavator Demo**

On April 19<sup>th</sup>, Ellens Equipment held a Grader Blade & Excavator demo. The customers that attended learned more on how the grader blade and excavator could better assist their operations. Matt Skop from Sitech was on site demonstrating the advantages of Trimble equipment and answered questions about lasers, total stations, and 3D equipment on both pieces of equipment. Bobcat representatives, Adam Gilde, and Tom Raska were also on site to further demonstrate this equipment and extend their knowledge on the Bobcat brand.

5297 W Stoney Corners Rd ~ McBain, MI

Mon-Fri: 8:00 – 5:00 ~ Sat: 8:00 -12:00
